

Environmental Monitoring Report

PUBLIC

Project Number: 53276-002
Semi Annual Report (October 2024 - March 2025)
July 2025

India: Tripura Urban and Tourism Development Project

PART D

Prepared by Project Management Unit, Urban Development Department, Government of Tripura
for Asian Development Bank (ADB).

This environmental monitoring report is a document of the borrower. The views expressed herein do not necessarily represent those of ADB's Board of Directors, Management, or Staff, and may be preliminary in nature. Your attention is directed to the "terms of use" section of ADB's website.

In preparing any country program or strategy, financing any project, or by making any designation of or reference to a particular territory or geographic area in this document, ADB does not intend to make any judgments as to the legal or other status of any territory or area.

APPENDIX 11: ORIENTATION ENVIRONMENT SAFEGUARD IMPLEMENTATION

Urban Project Package: TUDA/WS-01/P-01 (Cluster IA Water Supply) and TUDA/WS-02/P-02 (Cluster IIA Water Supply)

Minutes of the Environment Safeguard compliance Review Meeting and Orientation on 7th February and 11th February 2025 for the ADB-funded Tripura Urban and Tourism Development Project (TUTDP) in relation to package “Cluster IA Water Supply” and “Cluster IIA Water Supply”

In continuation with earlier Safeguard orientation meeting / orientation program arranged on 13th May 2024 at project site of Cluster IA and Cluster IIA Water Supply packages (mentioned in last SEMR), further Environmental Safeguard compliance review meeting/ orientation and site visit for the aforementioned packages took place at Cluster IA towns on 7th February, 2025 and at Cluster IIA towns on 11th February, 2025. The purpose of the meeting was to apprise the Project Manager, Environment Engineer and HSE Officer of the contractor about the environmental safeguard requirements, particularly during the pre-construction and construction phases. Also, present compliance status reviewed on the desk and at site.

In attendance were:

Sl. No.	Name	Designation
1.	Mr. Prithwiraj Kundu	Environment Safeguards Support, PMSC
2.	Mr. Sujoy Chakraborty	Social Safeguards Support, PMSC
3.	Mr. Anit Maity	Design Engineer-Water Supply, PMSC
4.	Er. Dibyendu Chakma	Executive Engineer, In-charge Environment Safeguard

Point discussed during meeting as listed below:

- (i) Contractor to follow Under section 4 –Bidding form - Environment, Health and safety “Code of Conduct”- indicates contractor to follow and comply with EHS Code of Conduct and applicable rules and regulations and other requirements to protect environment & health.
- (ii) **Under Section 6 Employers requirement- Point 3. Environment, Health & Safety Management and Social requirement-** Management Strategies and implementation plans
- (iii) **To ensure compliance with environmental, health, and safety regulations, specifically to follow Section 8: Particular Conditions of the Contract- GCC 80**
“The contractor shall (a) establish an operational system for managing environmental reports, (b) carry out all the monitoring and mitigation measures set forth in Initial Environmental Examination and Environment Management Plan., (c) comply with any corrective and preventive actions set out in safeguards monitoring reports. That the employer will be prepare from time to time to monitor implementation of environment Management Plan, and (d) allocate the budget required to ensure that such measures and actions are carried out. The contractor shall submit quarterly reports on the carrying out of such measures to the employer”.

- (iv) Additionally, contractors are reminded to adhere to the Initial Environmental Examination (IEE) report and Environment Management Plan (EMP) throughout the project implementation process.
- (v) Statutory requirement and gaps have been discussed.
- (vi) Applicable EMP was discussed in the orientation meeting.
- (vii) Gaps noted at construction sites have been discussed.

An Environment Compliance Status Sheet for the pre-construction and initial construction stage was prepared after review of submitted documents and field check. Gaps are identified and informed to the contractors for immediate action.

Tourism Package: TTDCL/CHB/W 01 (Tourism Destination Development at Chabimura)

Minutes of the Environment Safeguard compliance Review Meeting and Orientation on 28th November 2024, for the ADB-funded Tripura Urban and Tourism Development Project (TUTDP) in relation to package “Upgradation of Eco-Tourism Destination at Chabimura, Amarpur, Tripura”

In continuation with earlier Safeguard orientation meeting / orientation program arranged on 13th May 2024 at project site of Chabimura tourism project, further Environmental Safeguard compliance review meeting/ orientation and site visit for the aforementioned package took place at Chabimura on 28th November, 2024. The purpose of the meeting was to inform the Project Manager, Environment Engineer and HSE Officer of the contractor about the environmental safeguard requirements, particularly during the pre-construction and construction phases. Also, present compliance status reviewed on the desk and at site. The meeting was organized on behalf of the Environment Specialist of PMSC (Urban & Tourism).

In attendance were:

Sl. No.	Name	Designation	Phone no.
1.	Mr. Arindam Malakar	Senior Architect	7044056027
2.	Mr. Prithwiraj Kundu	Environment Safeguards Support, PMSC	7890094318
3.	Mr. Manish Bhaskar Ingle	Construction Management Expert, PMSC	9423739773
4.	Mr. Subhadip Nandi	Structural Engineer	9167062545
5.	Mr. Sunny Kumar	Safety Officer, BVG India Ltd.	6201497876
6.	Mr. Alokesh Deb	Store In charge, BVG India Ltd.	9862981935
7.	Satyanarayan Yeju	Project Manager, BVG India Ltd.	9642069697
8.	Tapas Kanti Naha	Construction Supervisor, PMSC	7005437216
9.	Tapas Karmakar	Construction Supervisor, PMSC	7005205353

Point discussed during meeting as listed below:

- Contractor to follow Under section 4 –Bidding form - Environment, Health and safety “Code of Conduct”- indicates contractor to follow and comply with EHS Code of Conduct and applicable rules and regulations and other requirements to protect environment & health.
- **Under Section 6 Employers requirement- Point 3. Environment, Health & Safety Management and Social requirement-** Management Strategies and implementation plans
- **To ensure compliance with environmental, health, and safety regulations, specifically to follow Section 8: Particular Conditions of the Contract- GCC 80**
 - o *“The contractor shall (a) establish an operational system for managing environmental reports, (b) carry out all the monitoring and mitigation measures set forth in Initial Environmental Examination and Environment Management Plan., (c) comply with any corrective and preventive actions set out in safeguards monitoring reports. That the employer will be prepare from time to time to monitor implementation of environment Management Plan, and (d) allocate the budget required to ensure that such measures and actions are*

carried out. The contractor shall submit quarterly reports on the carrying out of such measures to the employer”.

- Additionally, contractors are reminded to adhere to the Initial Environmental Examination (IEE) report and Environment Management Plan (EMP) throughout the project implementation process.
- Applicable EMP was discussed in the orientation meeting.
- Statutory requirement has been discussed.
- Gaps noted at construction sites have been discussed.

An Environment Compliance Status Sheet for the pre-construction and initial construction stage was prepared after review of submitted documents and field check. Gaps are identified and informed to the contractors for immediate action.

Tourism Package: TTDCL/UKT/W04 (Development of Sonamukhi Eco Accommodation & Adventure Park)

Minutes of the Environment Safeguard compliance Review Meeting and Orientation on 21st November 2024, for the ADB-funded Tripura Urban and Tourism Development Project (TUTDP) in relation to package “Development of Sonamukhi Eco Accommodation and Adventure Park and Rehabilitation of Unakoti Tourist Lodge at Kailashahar”

Environmental Safeguard compliance review meeting / Orientation program for the aforementioned package took place at Sonamukhi Tourism project office on 21st November 2024. The purpose of the meeting was to inform the Project Manager, Environment safeguard specialist of the contractor about the environmental safeguard compliance requirements, particularly during the pre-construction and construction phases. Also, present compliance status reviewed on the desk. The meeting was organized by the Environment Specialist of PMSC (Urban & Tourism).

In attendance were:

Sl. No.	Name	Designation	Phone no.
1.	Dr. Ardhendu Mitra	Environmental (Safeguards and Climate Change) Expert, PMSC	9830415953
2.	Mr. Prithwiraj Kundu	Environment Safeguards Support, PMSC	7890094318
3.	Mr. Manish Bhaskar Ingle	Construction Management Expert, PMSC	
4.	Ms. Mahamaya Tiwari	Landscape Architect, PMSC	
5.	Mr. Shahid Parvez	EHS Officer, Tribeni Construction Ltd.	9432586656
6.	Mr. Subrata Sinha	Env. Safeguards Expert, Tribeni Construction Ltd., Tribeni Construction Ltd.	9836006555
7.	Mr. Palash Das	Quality Control, Tribeni Construction Ltd.	9862874804
8.	Mr. Suman Kanjilal	Site Engineer, Tribeni Construction Ltd.	7407458344
9.	Mr. Biprojit Das	Site Engineer, Tribeni Construction Ltd.	9113972188
10.	Mr. Bijay Tripura	Deputy Project Manager, Tribeni Construction Ltd.	9366501504
11.	Mr. Raj Kumar Tiwari	Project Manager, Tribeni Construction Ltd.	7002386257
12.	Chirantan Kar	Construction Supervisor, PMSC-TUDA	8787345982
13.	Sujoy Das	Construction Supervisor, PMSC-TUDA	9735156591

Point discussed during meeting as listed below:

- Contractor to follow Under section 4 –Bidding form - Environment, Health and safety “Code of Conduct”- indicates contractor to follow and comply with EHS Code of Conduct and applicable rules and regulations and other requirements to protect environment & health.
- **Under Section 6 Employers requirement- Para 3. Environment, Health & Safety Management and Social requirement-** Management Strategies and implementation plans
- **To ensure compliance with environmental, health, and safety regulations, specifically to follow Section 8: Particular Conditions of the Contract- GCC 80**
 - o “The contractor shall (a) establish an operational system for managing environmental reports, (b) carry out all the monitoring and mitigation measures set forth in Initial Environmental Examination and Environment Management Plan., (c)

comply with any corrective and preventive actions set out in safeguards monitoring reports. That the employer will be prepare from time to time to monitor implementation of environment Management Plan, and (d) allocate the budget required to ensure that such measures and actions are carried out. The contractor shall submit quarterly reports on the carrying out of such measures to the employer”

- Additionally, contractors are reminded to adhere to the Initial Environmental Examination (IEE) report and Environment Management Plan (EMP) throughout the project implementation process.
- Availability of all boards – display, emergency, safety signage (also in local language)
- Applicable EMP was discussed in the orientation meeting.
- Statutory requirement has been discussed.
- Gaps noted on pre-construction documentation have been discussed.

An Environment Compliance Status Sheet for the pre-construction and initial construction stage was prepared after review of submitted documents. Gaps are identified and informed to the contractors for immediate action.

Agency: Tribeni Constructions Limited.

Content of Tool Box Talk

What is HIV: It is the Human Immunodeficiency Virus (HIV) that infects the immune system of the body.

What is AIDS: It is Acquired Immune Deficiency Syndrome. It is the most advanced stage of HIV infection.

It describes several of the characteristics of the disease:--

Acquired (A): It indicates that it is not an inherited condition.

Immune Deficiency (ID): It indicates that the body's immune system breaks down.

Syndrome (S): It indicates that the disease results in a variety of health problems.

It takes on average 5-10 years for the initial HIV infection to progress to AIDS if not treated.

How does HIV Spread?

HIV spreads when infected blood, semen or vaginal fluids enter the body. Because symptoms can be mild at first, people with HIV might not know they're infected. They can spread HIV to others without knowing it.

The main ways someone can get HIV are:

1. Sex without a condom
2. Having unprotected sex (meaning sex without a condom) with someone who has HIV, particularly unprotected vaginal sex and anal sex.
3. Passed from mother-to-baby during pregnancy, childbirth and breastfeeding :
4. A mother infected with HIV can pass the virus to her baby via her blood during pregnancy and birth, and through her breast milk when breast feeding.
5. Sharing injecting equipment
6. Sharing needles, syringes or other equipment used to prepare and inject drugs with someone who has HIV
7. Contaminated blood transfusions and organ/tissue transplants
8. Receiving blood transfusions, blood products, or organ/tissue transplants that are contaminated with HIV

If someone feels that he /she has been exposed to HIV, the only way to find out if he/she has HIV is to have an HIV test.

How can't you get HIV?

There are many myths about HIV. Some people wrongly believe that HIV can be spread through the air (even though HIV can't survive in air). HIV can't be spread through saliva, casual contact, touching toilet seats or from mosquito bites.

How do someone protect himself / herself from HIV?

There are a number of ways you can protect yourself from HIV, including:

- using a condom every time you have any type of sex (vaginal, anal or oral sex)
- avoiding sharing needles, syringes and other injecting equipment
- taking HIV treatment if you are a new or expectant mother living with HIV, as this will dramatically reduce the risk of passing HIV to your baby during pregnancy, childbirth and breastfeeding
- asking your healthcare professional if the blood product you are receiving (blood transfusion, organ or tissue transplant) has been tested for HIV
- If someone thinks he has been exposed to HIV, he should voluntarily take advice of a Doctor through the manager of the Contractor

It may be mentioned here that excessive stress at construction site and long absence from family may lead towards frustration for which they may resort to release their mental stress/pressure through uncontrolled sex. This should be avoided and contractor is also advised not to put any worker under excessive stress.

TOOL BOX TRAINING

Held on 04 -02-2025

INDUCTION TRAINING

(SONAMUKHI)

Project: Development of Sonamukhi Eco-Accommodation and Adventure Park and Rehabilitation of Unakoti Tourist Lodge at Kailashahar under TTDCL and TUTDP, Govt. of Tripura. Assisted by Asian Development Bank (ADB)

Agency: Tribeni Constructions Limited.

Crucial points/steps are covered in construction site induction training to ensure the safety of workers and for the compliance of the health and safety regulations.

Content of Induction Training

1. Site Overview

Detailed overview of the site, which includes:

- **Site layout and boundaries:** Use maps and diagrams to highlight key areas, ensuring everyone understands the site's geography.
- **Operational zones:** Distinguish between different areas such as construction zones, office areas, and restricted access areas. Explain safety measures and construction site access specific to each zone to prevent accidents and unauthorized access.
- **Facilities:** Identify locations of restrooms, break areas, first aid stations, and emergency exits.

2. Site-Specific Hazards

The site-specific hazards, including:

- **Physical hazards:** These may include machinery, vehicles, working at heights, and electrical risks. Detail the specific machinery used on site, safe operation procedures, and the importance of staying clear of moving vehicles and equipment.
- **Chemical hazards:** Discuss the proper handling of hazardous substances and procedures for spills. Add information on the types of chemicals present and the location of safety data sheets.
- **Environmental hazards:** Discuss how to prepare for and respond to severe weather, the presence of any dangerous wildlife, and other site-specific environmental concerns.

3. Health and Safety Policies

Clearly outline the site's health and safety policies, including the following essentials:

- **Personal Protective Equipment (PPE):** Explanation and discussion on the specific types of PPE required for different tasks, where to get one, and the importance of proper usage to prevent injuries.
- **Emergency procedures:** Providing detail instructions on how to respond to different types of emergencies such as fire, medical emergencies, and evacuations.
- **Incident reporting:** Highlight of the impact of timely reporting of accidents, near misses, and hazards to improve site safety.

4. Work Procedures and Rules

Discussion regarding the specific work procedures and site rules, as the following:

- **Access control:** It covering the check-in/check-out procedures, security measures in place, and any identification badges or passes required.

- **Permits to work:** Detail the application process for obtaining permits, the criteria for approval, and the importance of adhering to permit conditions to ensure safety.
- **Operational hours:** Outline of the standard working hours, designated break times, and any restrictions on noisy activities to minimize disruptions and maintain a productive work environment.

5. Communication Protocols

Effective communication is key to site safety and efficiency. A few elements of discussion with the team:

- **Radios and communication devices:** To explain how to properly use radios and other communication devices, including designated channels for different types of communication and emergency broadcasts.
- **Signage:** Common signs and signals used on the site with example, their meanings, and the importance of adhering to these visual cues to avoid accidents and misunderstandings.
- **Meetings and briefings:** The expectation for attendance and participation in scheduled meetings and briefings to help them stay informed of the site conditions and changes.

6. Waste Management and Housekeeping

Outline procedures for maintaining a clean and safe work environment, including:

- **Waste disposal:** Specify the proper disposal of hazardous and non-hazardous waste, the locations of waste bins and recycling stations, and the importance of segregating waste to prevent contamination.
- **Housekeeping:** Highlighting the importance of clean workspaces, proper storage of tools and materials, and immediate clean-up of spills or debris to prevent accidents and ensure a safe working environment.

7. Training and Competency

To ensure that everyone on site has the necessary training and competencies of the essential training courses such as safety training, equipment operation, and first aid, and the importance of staying up-to-date.

8. Emergency Contacts and Resources

Emergency contacts and resources, including:

- **Emergency services:** Location and display of the relevant telephone numbers for easy access in case of emergencies.
- **First aid location:** It include the information for the First-aid location at Camp site, Site office and Work site.

9. Site Management and Personnel Details

Outlined the key aspects of site management and personnel to give everyone a clear understanding of the organizational structure and procedures.

- **Management hierarchy:** Introduce the site management team and their roles, and provide an overview of the hierarchical structure.
- **Communication lines:** Outline of the hierarchy for escalating issues or concerns and to use this as an opportunity to reiterate the importance of reporting issues promptly to the appropriate manager or supervisor.
- **Roles and responsibilities:** Discussion with detail explanation of each team member's duties.

10. Conclusion and Acknowledgement

At the end of the construction site induction, a summary of essential points are being discussed with the accommodation of all questions.

Once all of these are done, everyone's (participants) signs are documented as an acknowledgment to confirm that they have completed and understood the content of the site induction content.

APPENDIX 13: GRM- GRC NOTIFICATION- TUTDP

No.F.No.3(43)-TUDA/Project/2022 / 437-442
Government of Tripura
Urban Development Department

Dated, Agartala, 29/04/2024

NOTIFICATION

In pursuance of the provisions of the Resettlement Plan (RP) prepared for the Asian Development Bank-supported Tripura Urban and Tourism Development Project (TUTDP) under Loan – 4375 IND in Tripura, it is required to establish a Grievance Redressal Mechanism (GRM) to receive, evaluate and facilitate the resolution of affected people's concerns, complains and grievances regarding social, environmental and other performance at project level.

The Urban Development Department (UDD), Government of Tripura is the Executing Agency for the project & Implementing Agencies for the project are the Tripura Urban Planning and Development Authority (TUDA), Urban Development Department (UDD), and Tripura Tourism Development Corporation Limited (TTDCL), Department of Tourism (DoT).

Now, as narrated in the Project Administrative Manual (PAM) issued by the ADB dated October, 2023 the Grievance Redressal Mechanism (GRM) and Grievance Redressal Committees (GRC) are hereby established at the three levels, viz, Site level, PIU level, and PMU level as mentioned below to address different stakeholder grievances and dissatisfactions about actual or pre-received impacts and to find a satisfactory solution. The GRM will be implemented throughout the project cycle for use by stakeholders to address concerns and complaints promptly and transparently.

1. **Site Level GRC (1st level):**

- 1.1. Composition of the GRC- The GRC at the Site level is constituted with the following members.

Sl. No.	Composition	Responsibilities
1	Junior Engineer (Site In-charge),	Resolution of issues on-site within five days of receipt of a complaint/ grievance
2	Assistant Safeguard Officer, PIU	
3	Contractor's Site Engineer	
4	Construction Supervisor, PMSC	
5	Representative from the affected community (as and when required)	

- 1.2. The Committee will be notified by the Project Manager (PIU).
- 1.3. Prior to registering the complaint/query, a procedural step will be in place to assess and check that issues raised in the complaint fall within the scope that the GRM is mandated to address.
- 1.4. Grievances thus accepted, acknowledged, and registered will be responded to the complainant in writing within 5 days' time and in the prescribed manner.
- 1.5. A Grievance Register will be maintained at the site level by this designated official to register the grievance as per the prescribed format attached in Annexure-I, including details of the date and type of grievance received the date of personal hearing provided to the complainant, the date when the grievance was redressed or if not redressed date of forwarding the grievance to the next level GRC.
- 1.6. Provision will be made to record and maintain grievances received directly on-site and incorporated in the Grievance Register. This will serve as the First Level of Grievance resolution.
- 1.7. Grievances that cannot be resolved at the site level within 5 days or in cases where the complainant is not satisfied with the decision, will be referred to the PIU-level (2nd level) GRC.
- 1.8. Grievances that do not reach a resolution at the PIU-level GRC (2nd level) within 10 days or in case where the complainant is not satisfied with the decision, will be further escalated to PMU level (3rd level) GRC.
- 1.9. With reference to complaints related to Gender Based Violence (GBV) / Sexual Exploitation and Abuse (SEA), the PIU will refer the case to the concerned Service Provider with an intimation to the Internal Committee (IC) under PMU and PIU and adhere to the principle of confidentiality while informing the same to the site level GRC (if required) as the case may be.
- 1.10. The designated official at the PIU will also be responsible for ensuring that a mechanism is put in place to address the grievances of laborers and staff deployed at project sites deployed at project sites by the Contractors.
- 1.11. The PIU will also ensure the installation of Display Boards at the site with GRM information with support from the implementation support NGOs and in consultation with the Project Management Unit (PMU), TUTDP.
- 1.12. The concerned Project Implementation Unit (PIU) will oversee the implementation of the Resettlement Plan (RP) and provide response to the grievances raised by the community and Affected Person(s) (AP).

2. **PIU – Level GRC (2nd level)**

- 2.1. Composition of the GRC: The GRC at PIU - Level may be constituted with the following members:

Sl. No.	Composition	Responsibilities
1	Project Manager of PIU	Review grievances

Sl. No.	Composition	Responsibilities
2	Assistant/Junior Engineers of PIU	unresolved at the 1st level and determine merit and dispose within 10 days period.
3	Construction Management Expert of PMSC	
4	Assistant Safeguard Officer of PIU	
5	Project Manager/ Incharge of the concerned contractor	
6	Representatives from line departments & ULBs as and when required.	

Note: it is advisable that there shall be a minimum of one-third of women representation in the committee (if possible).

2.2. The Second Level Grievance Redressal Committee (GRC) will be notified by the Project Manager for the sub- project at PIU – Level.

2.3. Functions of the GRC (2nd level): The functions of the PIU - Level GRC is listed below.

- (i) The GRC will meet regularly at least once a month on a prefixed date.
- (ii) Grievances will be recorded as per the prescribed format attached at Annexure-1
- (iii) All grievances of the people at PIU level will be reviewed and resolved within 10 days from the date of submission.
- (iv) The complainant will have the right to be heard by the GRC before the committee gives its decision.
- (v) Intimation in writing should be sent to the aggrieved person about the date, time, and venue of the GRC sitting.
- (vi) With reference to complaints related to GVB/SEA, the principle of confidentiality will be adhered to.
- (vii) Decision of the PIU-Level GRC will be final unless an appeal is preferred with the PMU level.

2.4. The GRC will continue to function, for the benefit of the stakeholders, during the entire life of the project including the defects liability period

3. PMU - Level GRC (3rd level):

The 3rd-Level Grievance Redressal Committee at PMU is constituted with the following members.

Sl. No.	Composition	Responsibilities
1	Project Director (Chairman) of PMU	Address grievances not resolved at the 2nd level within 15 days of receiving the complaint.
2	Co-Project Director (Co-Chairman) of PMU	
3	Additional Project Director (Urban & Tourism) of PMU	
4	Project Coordinator (Urban & Tourism) - Member Secretary of PMU	
5	Individual Safeguards Consultant (Social Cum Gender) of PMU	
6	Environmental Safeguards Officer of PMU	

Sl. No.	Composition	Responsibilities
7	Representatives from line departments & ULB as required and representatives of affected communities (if required)	

Note: it is advisable that there shall be a minimum of one-third of women representation in the committee (if possible).

The Committee will address stakeholders' grievances and dissatisfactions about actual or perceive impacts and find satisfactory solution at the policy level. The Committee will take up grievances scaled up from the Site Level. Grievances received by the Urban Development Department (UDD) and Department of Tourism (DOT) through other portals related to the Tripura Urban and Tourism Development Project (TUTDP) will also be placed before the PMU-level committee for redressal. The Committee will dispose of all grievances registered at PMU level within 15 days. Performance reports will be generated at each level and submitted to the Project Director, at the end of each quarter or as applicable. The Committee will ensure that the stakeholders/appellants have access to legitimate, reliable, transparent, and efficient institutions that are responsive to their complaints.

50% attendance of the committee members at all three levels will constitute the quorum for the meeting. In the case of Site Level GRCs, the participation of the concerned ULB Chairman/Authorized Person of concerned ULB for the Urban sub-projects whereas for the Tourism sub-projects participation of Panchayat Pradhan/Authorized Representative of the concerned Panchayat is advisable as per requirement.
